

Collaborative AI agents that plan, reasons and navigate user interfaces across browser and desktop environment

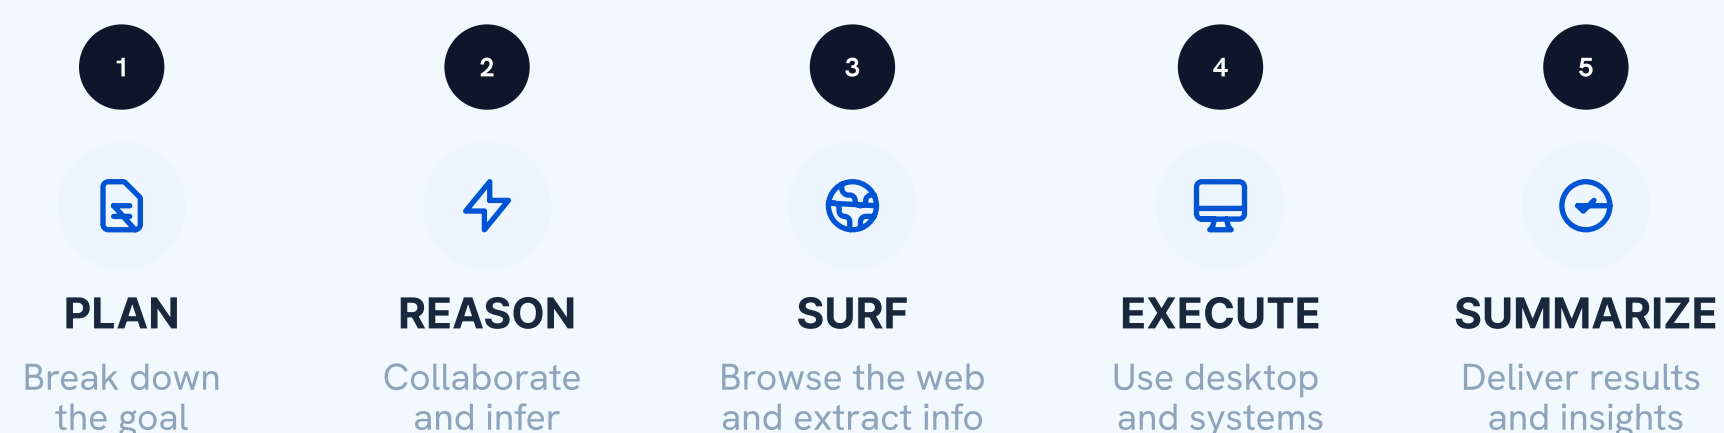

Henry Ruiz

MULTI-AGENT ARCHITECTURE

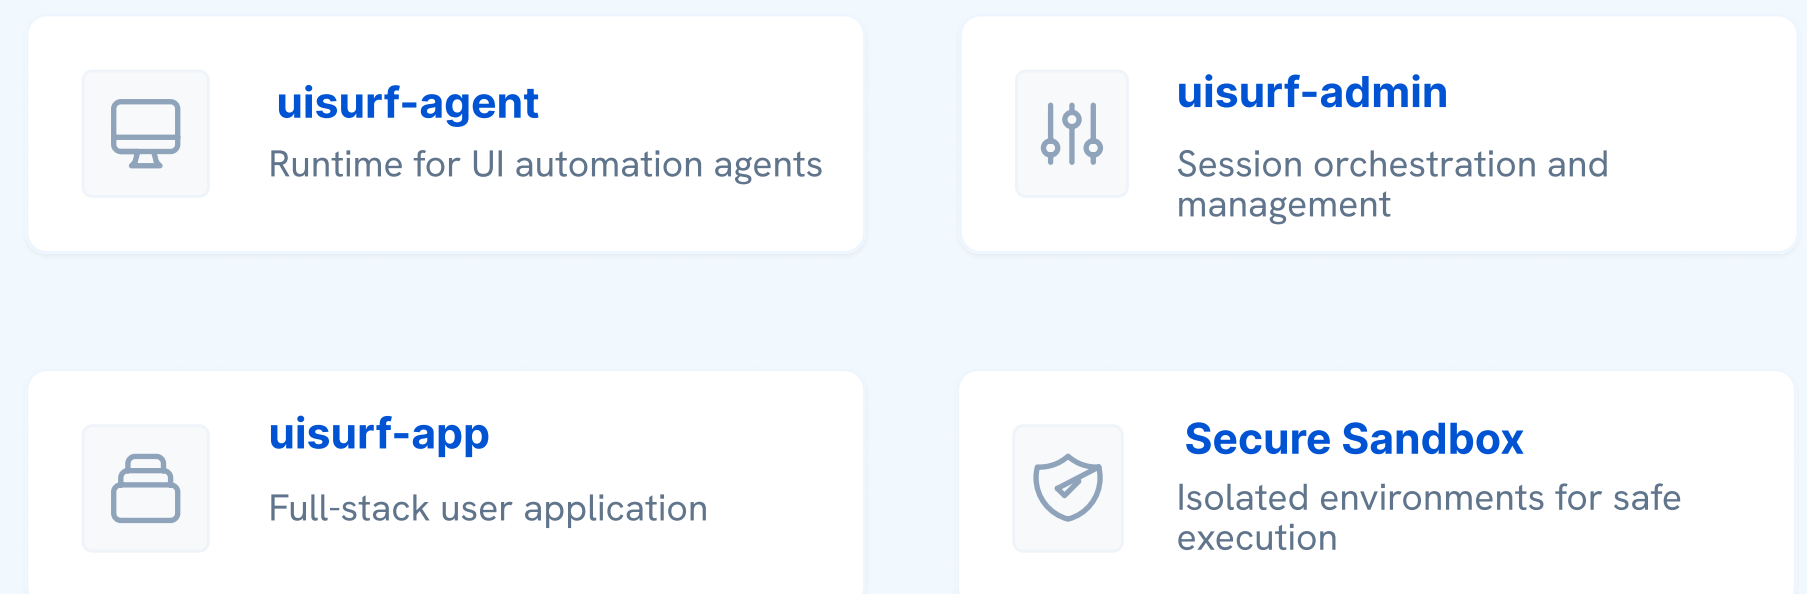

HOW IT WORKS

SANDBOXED & COORDINATED EXECUTION
Agents Interact Securely Through The UISurf Orchestration Layer.

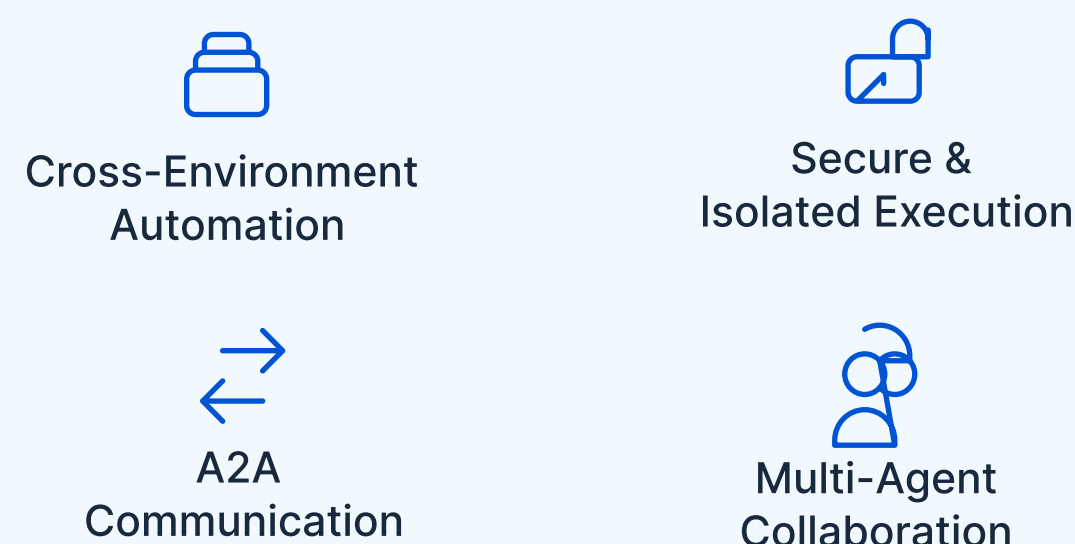

CORE COMPONENTS

CAPABILITIES

- ✓ Natural Language To Execution Plans
- ✓ Web Navigation And Data Extraction
- ✓ Desktop Automation And File Operations
- ✓ Tool And Api Integrations
- ✓ Cross-Agent Communication (A2A)
- ✓ Result Validation And Summarization

TECHNOLOGIES

UISurf enables intelligent agents to work together across UI:
PLAN. REASON. SURF. EXECUTE. SUMMARIZE.
